Kiss Your Grass Goodbye!

*Learn how to kick your lawn to the curb with
Author Sarah Sutton on Saturday, July 11 at 11 am!*

***From Turf to Terrific –
How to Create a Beautiful
Turf-Less Front Yard!***

Join us at the nursery on **Saturday, July 11 at 11 am** for a liberating talk by Sarah Sutton, Landscape Architect and author of the excellent book, "[The New American Front Yard: Kiss Your Grass Goodbye.](#)"

Specifically designed for transforming your front lawn and yard into a wildlife attracting, water-wise and easy-to-manage paradise, Sarah's book comes with step-by-step instructions for planning, installing and maintaining a beautiful and welcoming sustainable front yard with serious curb appeal. Chock-full of low-water loving design alternatives and plant palettes, you'll get plenty of ideas you can put to use right away!

With over 30 years experience as a landscape architect and a decade teaching sustainable design courses, Sarah will share tips and easy tools to help you *LET GO* of your lawn! She'll be available to answer questions and sign books after the talk.

BONUS! We'll hold a **FREE** raffle after the talk and give away a signed copy of Sarah's book, as well as compost, garden supplies and more! Just be here by 11 to get your free raffle ticket!

***Our July
SALE-O-RAMA continues!***

***All Plants 20% off
online and in the nursery!****

We're OPEN July 4th!

**SALE valid on all plants online and in the nursery thru Sunday, July 12, 2015. Discount taken at checkout, does not extend to previous purchases or gift certificates and cannot be combined with other offers or coupons.*

Lovely low water alternatives to thirsty lawns!

Mimulus bifidus
'White'

ALWAYS in bloom here in temperate CA, this extra large, frilly Monkeyflower does so much and yet asks for so little! Deer and drought tolerant, it's a pollinator smorgasbord for bees and butterflies.

Achillea millefolium
var. rubra 'Rosy Red'

You just can't ask for an easier to grow plant than Yarrow. Heat and deer resistant and drought tolerant, its dense ferny foliage makes a great lawn substitute. Beautiful rosy pink umbels! **Hardy to USDA zone 5!**

Verbena lilacina 'De La Mina'

You won't believe how floriferous this gorgeous drought tolerant CA native is! **Flowers almost ALL YEAR LONG** with fragrant lavender blooms. Hands down our most robust native plant. Tolerates clay, captivates bees and butterflies.

Asclepias curassavica
"Mexican Milkweed"

You can't have a sustainable, wild-life attracting garden without at least ONE "Milkweed" - and this essential butterfly magnet brings a welcome pop of orange and yellow. Self-sows for next year's butterflies, too!

Lippia repens

Evergreen walkable lawn-substitute anyone? This adorable CA native sprouts multi-hued flowers **Spring thru Fall**, attracting butterflies & bees. **Feet, paws and fire proof**, it grows only 2" tall and never needs mowing. Hardy to USDA zone 8!

Penstemon heterophyllus
'Blue Springs'

Perfect for adding bold color to the dry garden, the jewel-toned flower spikes on this native Penstemon **bloom Spring thru Fall. Attracts hummers and butterflies!** Goes with everything!
